    - $0 copay for lab tests.
    - $35 specialist copay, $100 urgent care copay, and $500 emergency room copay.
    - Prescription coverage with affordable copays
- $0 copay and $0 deductible for imaging, outpatient, and inpatient procedures when coordinated through our concierge services with Wellnet 800-915-9497

A GUIDE FOR INDIVIDUALS
PNC BENEFIT PLUS HEALTH SAVINGS ACCOUNT OVERVIEW

Your PNC BeneFit Plus Health Savings Account (HSA) is a great way to pay for healthcare expenses now and in the future. An HSA allows you to take control of your healthcare spending and to save for qualified medical expenses on a tax-advantaged basis. It's easy — you can gain tax savings on contributions to your account, invest your funds and let them grow tax-free. Withdrawals from your account are tax-free when you use the funds for qualified medical expenses.

Health Savings Account Benefits

Tax-advantaged

You may benefit from tax-advantaged contributions, investment earnings and withdrawals for qualified medical expenses.[1,2]

Ownership

You own your account and the money in the account, even if your employer contributes to it.

Long-term savings

Unused funds roll over from year-to-year. The funds invested can help you to build financial security for retirement savings or to pay for unexpected medical expenses. You may be able to access unused balances to supplement retirement income after age 65, subject to applicable income taxes.[2]

Portability

Your money stays with you even if you switch jobs, change medical coverage, become unemployed or retire.

Managing Your HSA is Easy

PNC BeneFit Plus can make all aspects of managing your account easy with the following features:

Easy to open

You will receive a welcome email notification and/or letter with instructions on a few simple steps to activate your account.

Easy to contribute

You can contribute via payroll deduction and make scheduled or one-time contributions from your personal bank account, or make check contributions through the U.S. mail. Contributions made outside of your payroll deductions are eligible for tax deductions on your tax return.[2]

Here are some other things you need to know about contributing to your HSA

- There are annual limits set by the IRS for how much you can contribute.[4]
- Those over age 55 may also be eligible to make a catch-up contribution.[4]
- You have until April 15th to make your full contribution for the prior tax year.[2]
- You can check the Consumer Portal to see your total contributions for the current tax year.

Easy to grow

Your HSA includes an FDIC-insured deposit account (covered to the extent permitted by law) with tiered interest rates. Plus, you can choose to invest in a variety of mutual funds upon meeting certain minimum balance requirements and watch your money grow tax-free.[2,3]

How to report your absence online

The first step in reporting an absence is knowing when to report it. Given the multiple benefits that can cover your absence, here are a few rules of thumb:

3. Choose **Submit.**
   For disability claims, you'll be asked to download, sign, and submit a medical authorization form, which you or your claims specialist can provide to your doctor.
4. You'll need your claim number to view the status for the first time**.** A PDF of the information you submit will be available to save for your records.
5. Check the status of your claim online at **LincolnFinancial.com.**
   You can also opt in to text messaging via **LincolnFinancial.com.** You'll receive texts on the receipt, approval, and extension of an absence, benefit payment information, if applicable, and the closure or extension of a claim based on your return to work.

GLOSSARY OF TERMS

COPAYMENT: A copayment (copay) is the fixed dollar amount you pay for certain in-network services on a PPO-type plan. In some cases, you may be responsible for coinsurance after a copay is made.

COINSURANCE: Your share of the costs of a healthcare service, usually figured as a percentage of the amount charged for services. You start paying coinsurance after you've met the deductible. Your plan pays a certain percentage of the total bill, and you pay the remaining percentage.

DEDUCTIBLE: A deductible is the amount of money you must meet before your plan begins paying for services covered by coinsurance. Some services, such as office visits that require copays do not apply to the deductible. For example, if your plan's deductible is $2,500, you'll pay 100 percent of eligible healthcare expenses until you have met the $2,500 deductible. After that, you share the cost with your plan by paying coinsurance.

EMBEDDED DEDUCTIBLE: Each individual within a family plan has their own individual deductible, which is a portion of the overall family deductible. Once a single family member meets their individual deductible, their insurance coverage starts paying for their eligible medical expenses, even if the entire family deductible has not been reached.

FORMULARY: A list of prescription drugs covered by the plan. Also called a drug list.
IN-NETWORK: A group of doctors, clinics, hospitals and other healthcare providers that have an agreement with your medical plan provider. You pay a negotiated rate for services when you use in-network providers.

INNETWORK: Health care received from your primary care physician or from a specialist within an outlines list of health care practitioners.

OUT-OF-NETWORK: Care received from a doctor, hospital or other provider that is not part of the plan agreement. You'll pay more when you use out-of-network providers since they don't have a negotiated rate with your plan provider. You may also be billed the difference between what the out-of-network provider charges for services and what the plan provider pays for those services.

OUT-OF-POCKET MAXIMUM: This is the most you must pay for covered services in a plan year. After you spend this amount on deductibles and coinsurance, your health plan pays 100 percent of the costs of covered benefits. However, you must pay for certain out-of-network charges above reasonable and customary amounts.

HIGH DEDUCTIBLEHEALTH PLAN (HDHP): This is a type of medical plan that requires the member to reach a deductible prior to having services covered by coinsurance. All expenses paid by the member count toward the deductible and out-of-pocket maximum.

PRESCRIPTION DRUGS

RETAIL PHARMACY: includes independent, supermarket, and chain pharmacies that dispense prescription medications.

TIER 1—PREFERRED GENERIC: are lowest in cost. They are equivalent to a brand-name product in dosage, strength, performance, and intended use. Ask your doctor to authorize generic substitutions when medically appropriate.

TIER 2—PREFERRED BRAND-NAME DRUGS: are more costly because they are produced and sold only by one company that holds a patent.

TIER 3—NON-PREFERRED GENERIC AND BRAND-NAME: are even more costly under our plans. These drugs are patent-pending and have just recently become available in the market.

SPECIALTY DRUGS: are high-cost drugs to treat rare and/or complex conditions. Typically self-injectable drugs are included in this category. Specialty drugs must be obtained through the Aetna Specialty Pharmacy.

MAIL ORDER: delivers a 90-day supply conveniently right to your door and helps you save a little bit of money on copays in addition to having fewer refills throughout the year.
